PROFESSIONAL SUMMARY

BSIT student and aspiring AI Automation & Generative AI Developer with hands-on experience building practical AI-powered applications and modern web projects. Skilled in Python, Generative AI, prompt engineering, AI APIs, Streamlit, FastAPI, React, Next.js, JavaScript, and REST API integration. Built and deployed an AI Email Assistant, AI Quiz Generator, and AI Content Generator. Experienced with Git/GitHub, application deployment, and developing user-focused solutions.

TECHNICAL SKILLS

AI & Generative AI: Generative AI, AI Automation, AI Chatbot Development, Prompt Engineering, AI-powered Application Development, AI API Integration, LLM-based Applications
Programming: Python, Java, JavaScript, HTML, CSS
Web & Full-Stack: React, Next.js, FastAPI, Streamlit, Tailwind CSS, REST APIs, API Integration, Full-Stack Web Development
Tools: Git, GitHub, VS Code, Streamlit Deployment, Application Deployment
Professional: Problem Solving, Project Development, Technical Research, Student Mentoring, Communication, Adaptability

EXPERIENCE

Independent AI Projects & Student Mentoring | *Independent AI Developer & Student Mentor* | Present

- Developed AI-powered applications using Python, Generative AI, Streamlit, and modern web technologies, including an AI Email Assistant, AI Quiz Generator, and AI Content Generator.
- Applied prompt engineering to design effective AI interactions and generate structured, user-focused outputs.
- Integrated AI APIs and REST APIs into application workflows; deployed apps with Streamlit and managed repositories using Git and GitHub.
- Built modern web interfaces with React, Next.js, JavaScript, Tailwind CSS, and HTML/CSS; handled debugging, deployment, and project implementation.
- Provided student mentoring and technical guidance on programming concepts, project development, and practical problem-solving.

PROJECTS

AI Email Assistant Python, Generative AI, Streamlit, AI APIs | Live Demo | GitHub
- Built an AI-powered app that generates professional, context-aware email responses using prompt-based generation.
- Designed an interactive Streamlit interface, integrated AI capabilities into the workflow, and deployed the app online.

AI Quiz Generator Python, Generative AI, Streamlit, Prompt Engineering | Live Demo | GitHub
- Built an educational app that generates structured quiz questions from user-provided topics and requirements.
- Used Generative AI and prompt engineering with an interactive Streamlit interface; deployed and maintained via GitHub.

AI Content Generator Python, Generative AI, Streamlit, Prompt Engineering | Live Demo
- Developed an AI content creation app producing structured, engaging written content guided by prompt engineering.
- Built a simple, usable Streamlit interface and deployed the application online.

Personal AI Developer Portfolio Next.js, React, TypeScript, Tailwind CSS
- Designed and built a responsive portfolio with Hero, About, Skills, Projects, and Contact sections.
- Added links to GitHub, LinkedIn, email, and live AI project demos.

EDUCATION

Bachelor of Science in Information Technology (BSIT) — University of Agriculture, Faisalabad | Expected Graduation: 2027 (6th Semester)

CERTIFICATION / TRAINING

Generative AI Development Mastery (Beginner to Advanced) — SoftCr8ors (Miss Reeba)
Covered: Generative AI, Prompt Engineering, AI Application Development, AI APIs, Chatbot Development, RAG Concepts, FastAPI, Streamlit, Full-Stack AI Development

LANGUAGES

English — Professional Working Proficiency | Urdu — Native

CAREER INTERESTS

AI Automation, Generative AI Development, AI Chatbot Development, AI Application Development, Full-Stack Web Development, Prompt Engineering, AI Integration
